CIA IMAGERY ANALYSIS DIVISION

KIEV AIRCRAFT ASSEMBLY PLANT #473
KIEV, USSR

25X1D 1. The Kiev Aircraft Assembly Plant #473 was first observed on KEYHOLE
25X1D [REDACTED] At that time the aircraft assembly plant contained 25X1D
25X1D approximately 1,383,500 square feet of floor space. KEYHOLE [REDACTED] 25X1D
25X1D [REDACTED], revealed a large amount of new construction (CIA/PIR-20/64). A
comparison of this photography and KEYHOLE [REDACTED] shows 25X1D
25X1D construction observed on KEYHOLE [REDACTED] to be completed, bringing the
total amount of floorspace to approximately [REDACTED] square feet. 25X1D

The additions to Plant #473 include an addition to the final assembly hall of approximately 68,040 square feet (Item 1, Table 1), an addition to the subassembly bldg. of approximately 172,200 square feet (Item 2), a sub assembly/machine shop (Item 7), an addition to the forge/foundry of 5,950 square feet (Item 8), a probable steam plant (Item 16), two workshops (Items 11 and 17), and one warehouse (Item 20).

25X1D Additional early stages of construction was observed on KEYHOLE
25X1D [REDACTED] There appears to be a POL storage area (Item 18), and a new
hangar approximately 240 feet by 220 feet (Item 19) under construction.
25X1D KEYHOLE [REDACTED] while
of poor quality, show this construction to be continuing.

Kiev Aircraft Assembly Plant #473 is rail served with approximately 3,500 feet of track. There is also approximately 16,100 feet of hard surfaced road, (probably concrete), 20 feet in width. The fence appears to be made of masonry (4,500 feet) and wire (41,500 feet).

2. Table 1 contains the description and dimensions of the major buildings comprising Kiev Aircraft Assembly Plant #473. All measurements were made by the NPIC Technical Intelligence Division, with the exception of those marked with an asterisk. These height and horizontal measurements were compiled by the CIA/IAD analyst, and should only be considered approximate.

25X1D 3. Kiev/Svyatoshino Airfield serves the plant as a test and flyaway field. The airfield has a northwest/southeast concrete runway measuring 5,900 feet by [REDACTED] feet. The airfield is served by taxiways, one of which connects with the plant, and by parking/assembly aprons.
